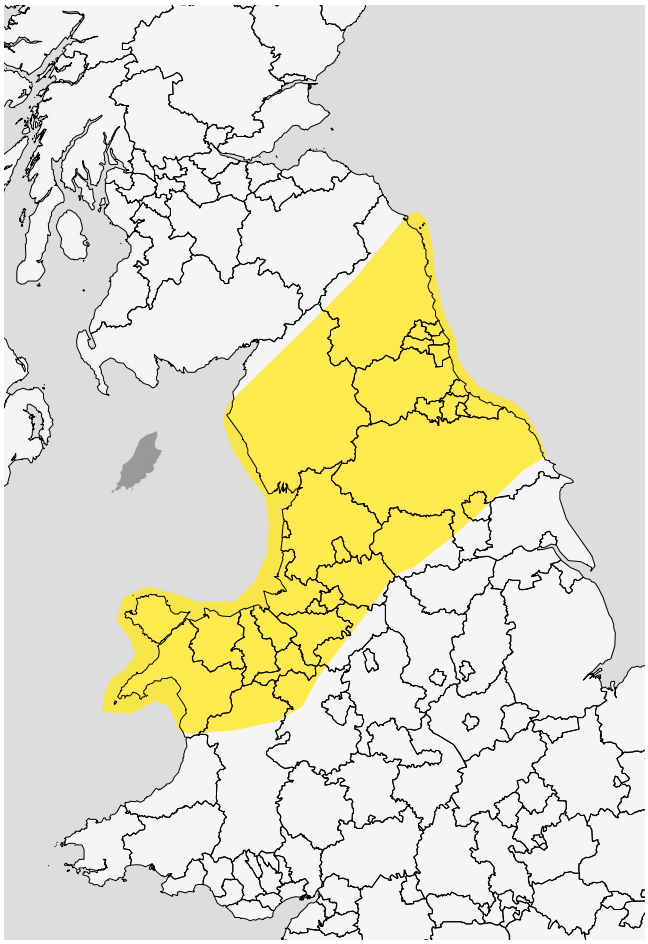
Yellow warning
Rain

Between
00:00 Mon 14 Aug 2023 and
21:00 Mon 14 Aug 2023



Rain, heavy and persistent at times, bringing the risk of disruption to transport and infrastructure.

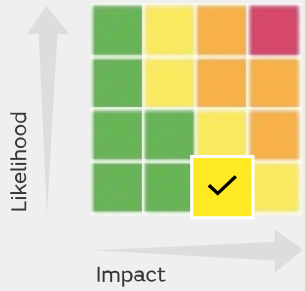
What to expect

- There is a small chance that homes and businesses could be flooded, causing damage to some buildings
- There is a small chance that some communities will be temporarily cut off by flooded roads
- Spray and flooding is likely to lead to some difficult driving conditions and road closures
- Where flooding occurs, there is a chance of delays or cancellations to train and bus services
- There is a slight chance of power cuts and loss of other services to some homes and businesses

Further details

Areas of rain will continue to move northeast across much of England and Wales through today before easing and clearing into the North Sea tonight.

A corridor of heavy and persistent rain is expected to move northeast across north Wales into northern England through the remainder of Monday with some thunderstorms also likely developing within this region. Many places are likely to see 20-30 mm of rain today, but a few places may see 60-80 mm with much of this falling in 3-6 hours.



Very low likelihood of medium impacts
